the archives of American basebalt tells how, in July 1931, Joe "Mule" Sprinz of the Cleveland Indians caught a basebalt that had been tossed from a blimp stationed 800 feet up in the air. Receiving the ball in an overstuffed catcher's mitt, Sprinz handled the job perfectly, but the ball'a impact sent a shock wave through his body that broke bis Jaw. * * * One of the most unusual One of the most unusual baseball games ever played was the contest between Texarkana and Corsicana of the Old Texas League on June 15, 1902. The final score was Corsicana 51, Texarkana 3. Stars of the game were the Corsicana alugger Clarke, who walloped eight home runa in as many times at bat, and Texarkana pitcher, C. B. DeWitt, who gave up all 51 runs. Clarke eventually made it to the majors. He played for various teams from 1905 through 1920 but hit only six homers in 1,536 times at bat.

Allied decision made, but

Members of the Jermyn Zoning Board of Appeals met Monday evening in the Jermyn Community Center and made a decision on a zoning appeal brought by Atty, and Mrs. Alhert E. Nicholls, Jr. against the borough 1 regard to a property at 438 Washington Ave., purchased by Allied Services for the Handicapped.

However, according to a spokesman for the board, results of the decision would not be announced until after parties in the litigation.

I Marian chairman and Frank Grumm.

A public hearing was held on the appeal
Oct. 21. During that hearing, Frederick R.
Stephens, borough zoning officer for the past ten years, testified that he granted a special use permit to Allied last spring, the property of the property of the past ten years. The property of the prop because "Borough Council President saw nothing wrong with it."

the board, results of the decision would be announced until after parties in the litigation were notified by mail.

Robert J. Jones, who is serving as secretary to the three-man board, told the MIR-has no recourse but to bring an action against Jermyn borough for \$55,000....the end of the borough of Jermyn can be cost of the property plus renovations Allied has put into the building. tary to the three-man board, told the MIR-ROR Monday night. "Yes, we made a decision, but we cannot release it to the press-until we notify the people involved."

Other members of the board are Richard

Oth

Speculation among informed sources was that the board would uphold the appeal brought by the Nicholls, who live at 433 Washington Ave., just opposite the former Jermyn Community House. Allied Services using it as halfway house for a transitional living program for emotionally disturbed process.

It must be a riot, with tempers lost, there in the Kremlin, adding the costs, but for Pyotr and Pilot, there got they, ditched on a rock in the Swedish Bay! It must have been a jot, indeed, there on the sands, plainly seen,

Pyotr and Pilot hung on the rocks, with the Kremlin in temper, takin' the shocks! Try as they might, in their usual way, explain what they're doin' 'cause they can't sneak away

In private waters, they landed there, maybe with vodka, they knew not where? But, it's funny, 1 think to look and see, stripped of its vanity! and of the Russian Navy of the "latter-The Swedes got "Ivan, port, aft, and sail....

> In these times of tension, these worrysome it's nice to see the bad guy sway; well in their waters, and he got caught!

Well we know, and well for sure, they didn't get there by hook and lure. But, for Pyotr and Pilot, there go they, ditched on a rock in the Swedish Bay....

Huge Deposits of Domestic Energy

Await Discovery

Await Discovery

There is still domestic oil and gas to be found. According to the U.S. Geological Survey, waters surrounding Alaska alone could contain up to 18 billion barrels of oil and as much as 60 trillion cubic feet of natural gas.

These potential additions remain in place, even findamount to 55 percent of ing new deposits of fossil currently proven oil reserves fuel—which can be located in high-risk, remote, and even environmentally hostile places—will remain a be huge deposits of domestic oil and gas waiting to be discovered, declines in production from existing fields are expected to more than offset production from remain and fist production from existing fields are expected to more than offset production from remain and obstruction, does little to make the good news better.

These are finite resources that must be supplemented by other available energy sources such as coal and nuclear, which have yet to be fully developed.

As long as environmental and regulatory roadblocks energy-short years ahead.

WASHINGTON George Washington never lived in the White House. John Adams moved into the unfinished White House in November 1800. It is reported Mrs. Adams hung clothes to dry in the uncompleted East

Well Heeled

SCARSDALE, N.Y. --- Walking with worn-down shoe heels can put a strain on back and leg muscles. Footwear should be re-heeled, when needed, to reduce fatigue and make shoes more attractive. If you're tired of the color of your shoes or boots, investigate the variety of shoe dyes that come in aerosol form. Darkening a light color is usually the most successful approach to give your shoes a new look.

Tree Art

NEW YORK - a 250-year-old Japanese pine tree grown in its natural surroundings would be an 80-foot high giant, but using the riental art of Bonsai the same tree is only 24-inches high. Dwarfing plants in the classic bonsai style

requires regular pruning of their roots and shoots. Other than in size, the plants are the same as if grown under normal conditions, reports the Brooklyn Botanic Garden. No Difference

AKRON, Ohio - Rubber hands can be made from natural or synthetic rubber and for most applications it doesn't matter which
